Hi,

I am writing to express my concern about the development planned for the Pincents Hill area/land east of Pincents Lane and the extension of the Tilehurst settlement boundary.

I serve as a Tilehurst Parish Councillor for the Birch Copse area and this proposal is widely objected to by the local community.

As a parent of children at a local primary school I have concerns about the impact on school places in the future at both primary and the local regularly oversubscribed secondary school.

I understand that the plans don't include adequate plans to improve infrastructure.

Finally, local residents will lose a beautiful and much loved area to walk and enjoy green space.

Please reconsider this plan and think about the needs of the local community.

Kind regards,

Caroline Basden
